WHY DENVER ACTIVE 20-30?

When you invest in a Legacy Grant, Denver Active 20-30 maximizes your investment in the community. Nearly 100 Denver Active 20-30 members (doctors, lawyers, investment bankers, accountants, entrepreneurs, and other professionals) apply their skillsets collaboratively to identify best-in-class grant recipients. In 2020, our members spent 1,100+ hours interviewing, evaluating, and selecting the best children's charities in Colorado based on their efficient use of donor funds, financial health, percentage of underprivileged youth served, and many other metrics. Recipients selected through this robust process are the best-of-the-best at improving the lives and futures of Colorado's most vulnerable children.

When you invest in Denver Active 20-30, you empower, grow, and build the next generation of leaders who will make a difference in the community. Denver Active 20-30 members meet the leaders of the most effective children's charities in Denver and are coached in completing unbiased nonprofit assessments. Nonprofit Boards pursue our members and benefit from the experience they receive.
